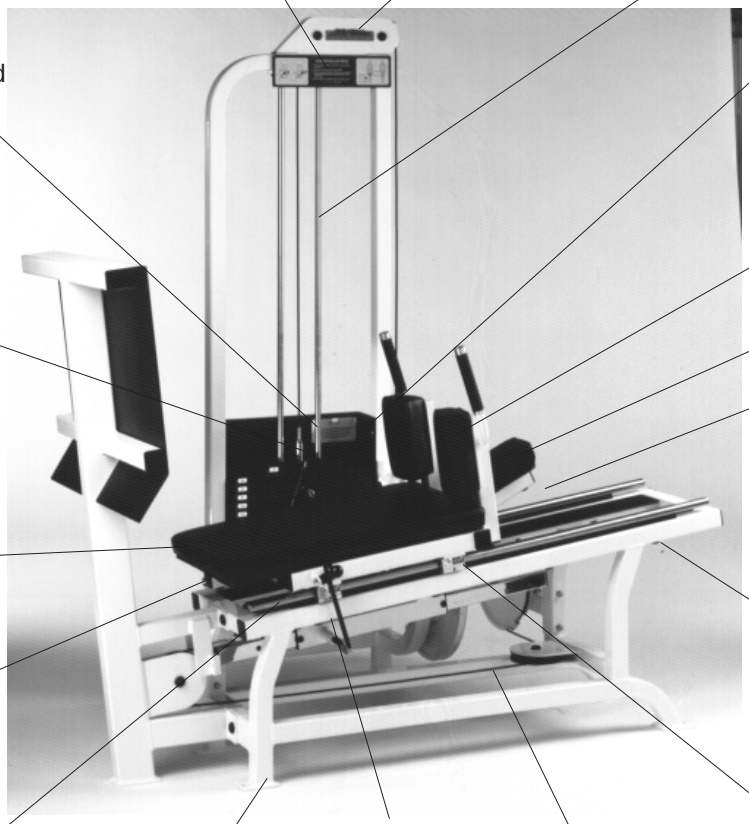
STRENGTH 9000 SERIES TRAINING EQUIPMENT
SL05 Horizontal Leg Press



Sk50-s0013-0000
Should only be used on older units where the top plate on the weight stack contains no holes. This kit consists of pin, lanyard attachment and plastic eye loop. The plastic eye loop fits over the Bayonet. The old style pin which was made of plastic is going to be upgraded with a rubber tulip head pin, but will still work with this kit.

0K50-A1102-0000
Fits only on newer units. Top plate on weight stack has an extra hole to accommodate the pin assembly. Push the end of the lanyard into the hole on the top plate. This style is currently being used on all 9000 strength series and MTS Hammer Units.
